BRIDGING GLOBAL SUPPLIERS WITH AFRICAN MARKETS ACROSS THE WHOLE FOOD SPECTRUM

FOOD & BEVERAGE | FOOD PROCESSING | PACKAGING | HORECA

The 4th edition of the International Food Show for Africa **IFSA Africa 2026** transformed the Parc des Expositions du Kram in Tunis into the continent's ultimate agro-food commercial crossroads. The core exhibition floor showcased the complete, end-to-end farm-to-fork value chain, bringing together over 150 international exhibitors and over 9,000 professional trade visitors.

By displaying finished Fast-Moving Consumer Goods alongside state-of-the-art agro-processing machinery, cold-chain logistics, and innovative packaging solutions, the event successfully industrialised regional supply chains to meet the rapidly expanding food business needs of the modern African consumer.

THE NATIONAL PAVILIONS OF IFSA AFRICA 2026

Explore how key participating nations leveraged their collective industry power to showcase distinct regional specialties, modern packaging innovations, and strategic food partnerships designed to reshape the continent's supply chains.

Saudi Arabia

Represented robustly by the Saudi Exports Development Authority, the Kingdom's pavilion spotlights 15 major national companies under the "Saudi Made" banner. The pavilion offers an advanced business environment displaying world-class food production, cold-chain logistics, and modern packaging solutions targeting growth markets across Africa.

SAUDI MADE

Algeria

Dominating the exhibition floor, Algeria makes a commanding statement at IFSA Africa 2026. As the largest presence at the event, its expansive pavilion acts as a premier industrial bridge, highlighting massive advancements in food processing, packaging innovation, and agricultural exports designed to feed the broader African continent.

Senegal

Rooted in regional integration, the Senegalese pavilion brings a dynamic showcase of West African food sovereignty to Tunis. It places a major focus on the evolution of local processing industries, sustainable agri-businesses, and strategic opportunities emerging through the African Continental Free Trade Area (AfCFTA).

South Africa

South Africa's pavilion stands out as a vibrant hub for AgriTech and sustainable food sourcing. Showcasing its famously diverse culinary terroir and high-quality agro-industrial equipment, the pavilion focuses heavily on establishing robust cross-border distribution networks and boosting intra-African trade infrastructure.

Palestine

Bringing a deep, historic agricultural tradition to the international stage, the Palestine pavilion centers around its world-renowned premium olive oils, dates, and specialty agro-products. The pavilion serves as an inspiring testament to high-quality regional production and enduring trade connections across global and regional markets.

A WORLD OF TASTE AND TECH

TRANSFORMING THE FUTURE OF **FOOD PROCESSING**

The digital stage is set for an unprecedented showcase at IFSA Africa 2026, with exhibitors officially registering an astonishing array of over 967 cutting-edge products on the event platform. This massive catalog serves as a comprehensive roadmap for the modern food industry, focusing entirely on the journey from processing to the consumer shelf. Industry leaders can explore a dynamic trifecta of sectors: diverse and innovative food products ready for global markets, state-of-the-art machinery designed to automate and optimize processing lines, and advanced packaging solutions built to extend shelf life and enhance retail appeal. As a bustling hub of commerce and manufacturing creativity, IFSA Africa 2026 connects the dots between raw culinary innovation and high-tech industrial execution, driving the evolution of African food processing on a truly monumental scale.

1ST EDITION OF THE
AFCFTA FORUM

Accelerating Intra-African Agri-Food Expansion and Trade Compliance under the AfCFTA Framework.

Organized on the initiative of the Chamber of Commerce and Industry of Tunis (CCITUNIS), this high-profile forum took place under the high patronage of the Tunisian Ministry of Commerce and the Ministry of Industry. Focusing heavily on opening privileged food market channels across the continent's 1.4 billion consumers, the forum addressed economic diplomacy, customs dematerialization, and rules of origin. The afternoon concluded with the practical launch of "Le Hub d'Affaires ZLECAf," facilitating immediate cross-border business-to-business (B2B) and business-to-government (B2G) networking pitch sessions.

AFRISYS 2026

The Arab-African Conference on Food Systems and Processing Industries
Under slogan"From Agricultural Production to Sustainable Food Industries"
The AFRISYS Conference was organized by the Arab Federation for Food Industries and the Arab Organization for Agricultural Development, in cooperation with the United Nations Industrial Development Organization (UNIDO) and the Food and Agriculture Organization (FAO), the Ministry of Industry, Mines and Energy, and the Ministry of Agriculture, Water Resources and Fisheries. The conference is a unique platform that brings together decision-makers, major investors, and food technology leaders from both continents

The conference discussed the ambitious cross-border partnership mechanism:

- Cross-border value chains: Building Arab-African economic integration.
- Presentations of countries' experiences in developing agricultural processing industries.
- Technologies for reducing food loss and post-harvest technologies.
- Sessions on innovation in the food industry (food technology).
- Discussion of the role of investment and partnerships in developing the food industry.
- Empowering women and youth in rural food industries.

The 2026 AFRISYS conference successfully established a high-level platform for sustainable food systems to enhance continental food security and reduce waste in supply chains. Moving from the diagnostic phase to the implementation phase, the conference focused on launching strategic cross-border investment projects, including a $1 billion initiative encompassing the Arab Food Innovation Fund and the standardization of regional halal certifications, to build climate-resilient value chains and empower women and youth.
